Art Unit: 1641

DETAILED ACTION

- **1.** Applicant's amended filed 01 November 2004 has been received. Claims 1-20 have been canceled. Claims 21-26 have been added and are pending.
- **2.** The rejection of claims 1-5 under 35 U.S.C. 112, first paragraph and second paragraph, as failing to comply with the enablement requirement is withdrawn in view of the cancellation of the claims.

Claim Rejections - 35 USC § 112

3. Claims 21-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 21 and 23 are vague and indefinite with respect to the wherein clause because it is unclear what is meant by "[the] presence of the reaction". Does the immunocomplex bind to the immobilized antigen in claim 21; or in claim 23, does the control reagent binds to the conjugated antigen? If so, this step needs to be positively recited. It is also unclear how the "reaction" is detected. It appears from the specification that the presence of the colored substance in the reaction zone serves as the indicator of the presence of IgA or IgG.

Claim 22 is also confusing with respect to the recitation of "control reagent which reacts with the conjugated antigen". It is recommended that Applicant replaces "reacts" with – specifically binds to—or—binds to—for clarity.

Allowable Subject Matter

- 4. The following is a statement of reasons for the indication of allowable subject matter: claims 21-26 define over the prior art of record because the prior art of record does not disclose nor make obvious a method for detecting IgA or IgG in a sample by contacting the sample with a membrane coated with a labeled tissue transglutaminase antigen, allowing immunocomplexes to form between the IgA or IgG and the labeled antigen, allowing the complexes to flow to a reaction zone having immobilized tissue transglutaminase antigen which acts as a capture reagent for the immunocomplexes, and detecting the label in the reaction zone as a measure of the IgA or IgG in the sample.
- 5. Claims 21-26 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US 4,012,494

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until

after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bao-Thuy L. Nguyen whose telephone number is (571) 272-0824. The examiner can normally be reached on Tuesday and Thursday from 8:00 a.m. -3:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Long V. Le can be reached on (571) 272-0823. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
